

# Qbag

The Qbag design locks in the flavours while retaining the original moisture & succulence of the vegetables. During cooking the BBQ pouch expands to create a steamy cooking chamber that maintains moisture and succulence. The unique window lets you see the food cooking, automatically venting to allow excess steam to escape while cooking. The window can be easily peeled away to let you stir, add more ingredients and serve. It's that simple!

Summer Vegetable Medley

Red Potatoes with Onions

Pepper Onion Blend

Corn on the Cob
